

Masaud Ahmod

Full Stack Engineer | Web Application Developer

Email: masaudahmod@gmail.com

Phone: +880 141 085 4416

Summary

Full-Stack Web Developer with **2+** years of experience building scalable, production-ready web applications using **TypeScript**, JavaScript, React, Next.js, Node.js, Express.js, PostgreSQL, and Prisma. **Experienced** in developing LMS platforms, e-commerce systems, role-based access control, inventory management, and microservices-based applications.

Featured Project

• Yoga With Doctor – LMS Platform

Node.js PostgreSQL Express JS Microservices

- Developed features for a production-ready **Learning Management System (LMS)** platform.
- Worked within a **microservices architecture** to build and integrate scalable application services.
- Developed the platform using **Next.js**, **Node.js**, **Express.js**, **PostgreSQL**, and **Prisma**.
- Contributed to Dashboard & Frontend - state management and application architecture using **Redux** and **TypeScript**.

Work Experience

• Yoga With Doctor - MERN Stack Developer

January - September 2026 • Dhaka, Bangladesh

- Contributing** to the development and maintenance of company-wide web applications, implementing new features and improving existing functionality.
- Developing** scalable frontend and backend solutions using React, Next.js, Node.js, Express.js, TypeScript, PostgreSQL, and Prisma, including RESTful APIs, authentication, role-based access control, and database-driven features.

• BioHealing – E-Commerce Platform

Next JS TypeScript Express JS PostgreSQL

- Developed a full-stack e-commerce platform with **product**, **order**, and **inventory management**.
- Implemented **role-based access control (RBAC)** for managing different user/admin permissions.
- Developed full-stack features using **NodeJS**, Express.js, **PostgreSQL**, Prisma ORM, Next.js, React, **TypeScript**, and Redux, including **REST APIs**, database management, and modern frontend functionality.
- Focused on scalable architecture, maintainability, and production-ready development practices.

Skills & Tools

• Backend & Frontend

JavaScript TypeScript Node JS Express JS Rest APIs React JS Next JS Redux

• Architecture & Engineering

Microservices Database Design PostgreSQL RBAC Prisma ORM MongoDB

• Tools & Infrastructure

Git GitHub ESLint Linux Docker Postman Cloudflare

Education

• Madan Mohan College and University

(2023- 2028) · Bachelor's (In Progress) - Sylhet, Bangladesh

• Shahjalal Jamia Islamia School and College

(2019 - 2021) HSC - Sylhet, Bangladesh

Currently Exploring

Exploring for **AWS Solutions Architect – Associate** and exploring **DevOps**, **VPS**, **Linux**, **CI/CD**, and **Docker** to strengthen cloud and deployment skills.
